

*Automotive **COVID-19** Management System (ACMS)*

*A tailor-made **COVID-19**
Management System for the
Automotive Industry*

IHSS | GROUP

Introduction

This Automotive COVID-19 Management System has been developed around the Government Protocols and best practices that have been identified by IHSS Group and various automotive industry leaders.

This system will aid businesses in the automotive sector to ensure that their businesses are both compliant and have implemented preventative measures to reduce the chance of COVID-19 spreading within their establishments.
